

Services and Products Directory

Our Services & Products directory allows you to find providers of care and community support services that are suitable for you or those you care about.

Through the directory you can find provider contact details and see what services they offer.

We are currently developing the range of service provider details we hold, and making sure that their information is accurate and up to date to offer you the best possible service.

The services and products listed on Live Well York are not audited or endorsed by the site or its partners, please refer to the [Buyer's Guide](#) for further advice or information about choosing services or products.

All providers wishing to list their services or products on Live Well York will need to sign up to and uphold the [Code of Conduct](#).
